

Šimon Nigut

About me

I am a student at the University of Southern Denmark, currently pursuing a Master's degree in Software Engineering. With a strong foundation in front-end development and UI/UX design, I bring a blend of technical expertise and creative problem-solving skills to the table.

As a quick learner and reliable team player, I thrive in collaborative environments where I can contribute to innovative projects. I am eager to apply my skills and grow professionally in the field of software engineering.

Work experience

JUNE 2023 - JULY 2024

Working Student

Software AG

- maintenance of ariscommunity.com website
- developing custom modules for new website features
- code reviews, technical documentation

Technologies: Drupal, PHP, HTML, CSS, JavaScript

SEP 2022 - JUNE 2023

Programming lector

Programko.sk

- led my own course in Go programming language
- taught secondary school children to code
- explain advanced concepts in a way that even children would understand
